

Microbiate HS™

Hydrocarbon Bioremediation

Microbiate HS™ provides the same benefits as our proven hydrocarbon remediator for soil and gravel, but for hard surfaces such as concrete and asphalt. Microbiate HS™ is made with our proprietary blend of synergistic, hydrocarbon-degrading bacteria.

Microbiate HS™ is available in 2 sizes to meet your spill needs, big or small.

COST SAVING

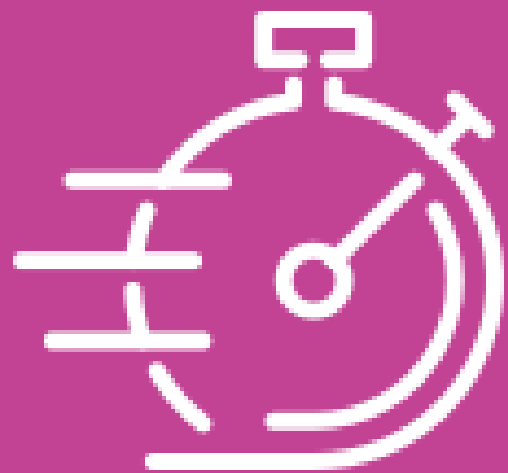

5 lbs of Microbiate HS™
=
40 lbs of leading granular products

Reduced shipping costs

TIME SAVING

Absorbs spills within minutes

Sweep and dispose of waste

ECO-FRIENDLY

Microbes biodegrade hydrocarbons, leaving the environment cleaner

Lightweight formula reduces waste

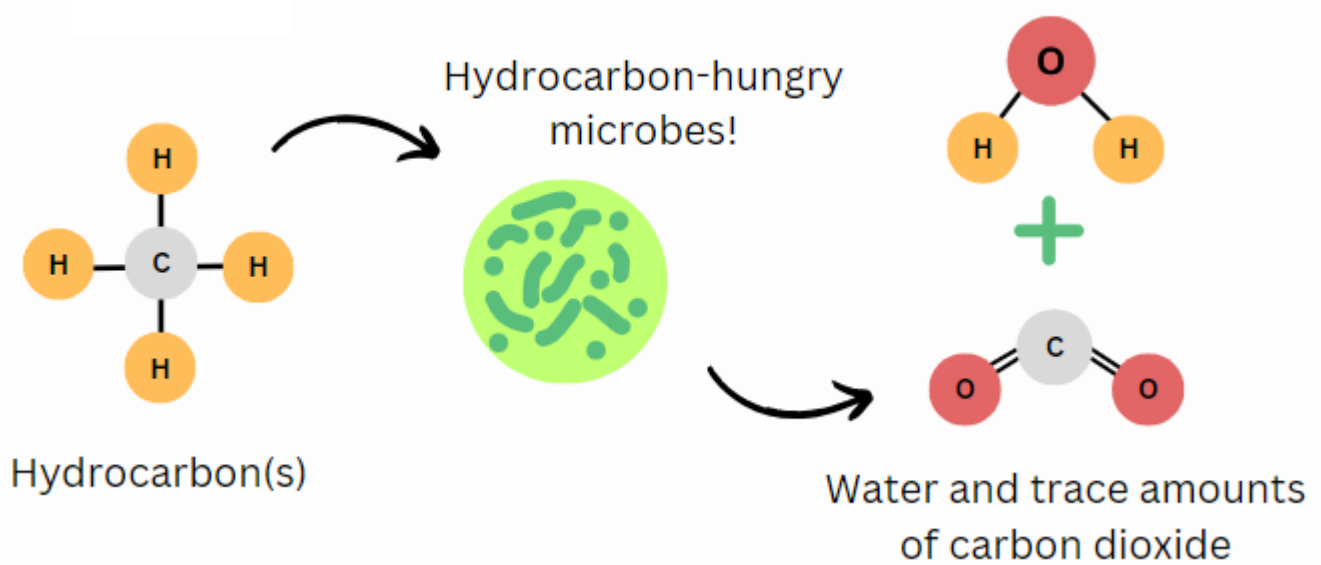

Microbiate HS™ is easy to use.

1. Locate spill area.
2. Apply Microbiate HS™ directly to the spill and the surrounding area.
3. Allow Microbiate HS™ to sit for 5 minutes to absorb the spill.
4. Sweep Microbiate HS™ off the spill location.
5. Dispose of Microbiate HS™ in an approved watertight container to biodegrade and bioremediate.

Hydrocarbon Degradation

- Made up of cellulase and our proprietary microbial blend
- Available in 2.3 kg (5 lbs) or 6.4 kg (14.1 lbs) bags
- 10-28 litres oil absorbency
- Biodegradable
- Bioremediates at a rate of 0.2 lbs/ cubic yard

On a molecular level:

Microbiate HS™ has 8x the absorbency of similar granular spill cleanup products.
